

## ACCESSING SMARTER MONEY INVESTMENTS VIA THE ASX

### It's As Easy As Buying Shares...

You can now access Smarter Money Investments' two funds, *Smarter Money Active Cash* and *Smarter Money Higher Income*, as easily as the way you buy shares thanks to the ASX's new "mFund" service.

The ASX's mFund allows you to buy and sell units in our managed funds via your ASX stockbroker or online broking account. The list of brokers who are mFund participants are listed below.

The mFund Codes for Smarter Money Investments' two products are listed below:

Product Name	ASX mFund Code
Smarter Money Active Cash	SMF01
Smarter Money Higher Income	SMF02

You just call your broker or login to your online broker, select the mFund option, and then choose the appropriate fund code (either SMF01 or SMF02). Review the relevant on-screen documents and disclaimer and then select the amount to purchase and submit the order.

Your broker will confirm the order, and once completed the unit holding will be added to your Holder Identification Number (HIN) and the data will be available on any reporting/portfolio software that you use alongside other ASX holdings.

mFund uses CHES, the ASX's electronic settlement system, to automate and track the process of buying (applying for) and selling (redeeming) units in these managed funds.

Investors' holdings in these funds ('mFund holdings') are held electronically and linked to the same HIN used to hold other investments transacted through ASX.

When investing into Smarter Money Investments' products via mFund, you will access wholesale units that have the same fee structure applicable as on other platforms.

<b>Minimum Investment</b>	\$1,000
<b>Unit Pricing</b>	Daily
<b>Income</b>	Interest accrues daily
<b>Withdrawals</b>	Daily (generally available after T+3)

Contact one of the brokers below to start buying and selling units in mFunds today.
